EDUCATION

Boston University

M.S. in Applied Business Analytics (STEM) | GPA: 3.77

Boston, MA

Aug 2025 – Aug 2026

Ningbo University of Technology

B.A. in Advertising

Ningbo, China

Sep 2015 – May 2020

WORK EXPERIENCE

EsVata | Los Angeles, CA | Business Analyst Intern

Nov 2025 – Feb 2026

- Leveraged SQL to query 20,000+ client records, performing cluster analysis to segment high-risk retention groups and optimizing follow-up prioritization for the Success Team.
- Pioneered the development of 4 Tableau dashboards for executive reviews, enhancing real-time KPI visibility and accelerating data-driven resource allocation decisions.
- Formulated** Excel-based churn prediction models and delivered strategic recommendations to senior stakeholders, facilitating measurable operational process improvements.

Vertiv | Shenzhen, China | Executive Assistant

Mar 2020 – Apr 2021

- Spearheaded a systems integration project linking Oracle ERP and PTS platforms; automated quality-control workflows which boosted reporting accuracy by 25%.
- Standardized cross-departmental data consolidation into monthly leadership reports, streamlining the delivery of strategic insights for executive decision-making.
- Orchestrated logistics and communication for cross-functional workshops across 3+ business units, ensuring seamless stakeholder alignment during complex operations.

Evergrande Group | Shenzhen, China | Marketing Specialist

May 2021 – Nov 2022

- Engineered a full-funnel campaign tracking system during a major organizational transition, ensuring data continuity and integrity for critical executive analysis.
- Synthesized multi-channel marketing data into weekly actionable insights; pinpointed underperforming segments and proposed budget reallocations to safeguard campaign ROI.
- Facilitated collaboration between 5+ internal teams and external agencies to execute integrated campaigns on schedule, despite significant operating constraints.

ADDITIONAL EXPERIENCE

Terra Marin School | San Francisco, CA | Bilingual Preschool Teacher

Nov 2022 – Jul 2025

- Designed and delivered structured bilingual (Mandarin-English) curriculum for classes of 20+ children, building skills in instructional design, cross-cultural communication, and multi-stakeholder management.
- Maintained individualized progress tracking for each student, applying structured data collection to assess developmental outcomes and adjust teaching strategies accordingly.

PROJECTS

Soundview NYC Real Estate Market Analysis & Optimization

Sep 2025 – Dec 2025

- Analyzed 5k residential records to detect market shifts and developed an 8-quarter NPV optimization model in Excel Solver.
- Engineered an 8-quarter NPV optimization model via Excel Solver to pinpoint an optimal 4.33% commission rate, yielding a \$1.24M projected NPV and delivering a 7-screen Power BI dashboard.

Music Preference Prediction — KNN Classification Model

Sep 2025 – Dec 2025

- Architected a KNN binary classification model on 2,017 Spotify tracks using Python (Scikit-learn) and applied two-sample t-tests to select 4 statistically significant features ($p < 0.05$).
- Optimized model via StandardScaler normalization and hyperparameter tuning ($k=13$) to achieve 64.8% accuracy, translating complex statistical outputs into business insights with Matplotlib.

SKILLS

Python (Pandas, scikit-learn, statsmodels, matplotlib, regex), **SQL** (CTEs, window functions, multi-table JOINS), **R** (dplyr, time series); **Machine Learning** (KNN classification, feature selection, model tuning), **Linear/Multiple Regression, Time Series Analysis, Forecasting, A/B Testing, KPI Dashboarding; Power BI, Tableau, Excel** (PivotTables, forecasting models), CRM
