EDUCATION

Boston University

M.S. in Applied Business Analytics (STEM) | GPA: 3.76

Boston, MA

Aug 2025 – Aug 2026

Ningbo University of Technology

B.A. in Advertising

Ningbo, China

Sep 2015 – May 2020

WORK EXPERIENCE

EsVata | Business Analyst Intern | Los Angeles, CA

Nov 2025 – Feb 2026

- Identified high-risk customer retention segments from 13,000+ CRM records using SQL and cluster analysis, enabling targeted outreach and improving retention strategy.
- Designed executive Tableau dashboards that transformed fragmented operational data into real-time KPI visibility, enabling leadership to make faster resource allocation decisions.
- Developed churn forecasting models and translated analytical findings into strategic recommendations for senior leadership, driving measurable process improvements.

Vertiv | Executive Assistant | Shenzhen, China

Mar 2020 – Apr 2021

- Led integration of Oracle ERP&PTS platforms to automate quality workflows, improving reporting accuracy by 25%.
- Standardized cross-departmental data consolidation into monthly leadership reports, streamlining the delivery of strategic insights for executive decision-making.
- Orchestrated logistics and communication for cross-functional workshops across 3+ business units, ensuring seamless stakeholder alignment during complex operations.

Evergrande Group | Marketing Specialist | Shenzhen, China

May 2021 – Nov 2022

- Developed an end-to-end campaign performance tracking framework that maintained data continuity during organizational restructuring, ensuring reliable executive reporting.
- Analyzed multi-channel marketing performance to identify underperforming customer segments and recommended budget reallocations that improved campaign efficiency and ROI.

PROJECTS

AI Equity Research & Valuation | Open Avenues Foundation

Jun 2026 – Aug 2026

- Conducted fundamental equity research by analyzing financial statements, key ratios, and business performance to develop an investment thesis.
- Built a three-statement financial model in Excel and performed DCF and comparable company valuation to estimate intrinsic value and support investment recommendations.
- Leveraged ChatGPT and Perplexity AI to synthesize SEC filings, earnings calls, industry research, and market sentiment, incorporating SWOT and Porter's Five Forces into a professional equity research report.

Soundview NYC Real Estate Market Analysis & Optimization

Sep 2025 – Dec 2025

- Analyzed 5k residential records to detect market shifts and developed an 8-quarter NPV optimization model in Excel Solver.
- Engineered an 8-quarter NPV optimization model via Excel Solver to pinpoint an optimal 4.33% commission rate, yielding a \$1.24M projected NPV and delivering a 7-screen Power BI dashboard.

ADDITIONAL EXPERIENCE

Terra Marin School | San Francisco, CA | Bilingual Preschool Teacher

Nov 2022 – Jul 2025

- Designed and delivered structured bilingual (Mandarin-English) curriculum for classes of 20+ children, building skills in instructional design, cross-cultural communication, and multi-stakeholder management.
- Maintained individualized progress tracking for each student, applying structured data collection to assess developmental outcomes and adjust teaching strategies accordingly.
